What was your favorite book you read this year and why?
<b>Math</b>	<a href="#">Math Mystery Case of the Graduation Gremlins (Mixed Skills Review)</a>  Print pages 1-8 to complete this math mystery.		The tennis shoe store is having a "buy one pair at full price and get the 2nd pair for half the price" sale. If the original price for one pair is \$98, and sales tax is 7.5%, how much does a customer pay for two pairs of tennis shoes? If you need to round your tax to the hundredths place, please do so.	The following sequence of operations is done on a number. Multiply by 5, add 2, subtract 10, multiply by 2. The result is 44. What is the original number?	John went to the store to buy presents for his favorite math teacher. He spent 2 thirds of his money at an electronics store. He then spent 1 third of the remaining money at a shoe store. At the end, he had \$8 left. How much money did he have at the beginning?
